

AARYA UMBARE

Pune, India | +91-7823861733 | umbarearya08@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Data Analyst skilled in **SQL, Python, Power BI, Excel, ETL, EDA, DAX, Power Query, KPI Reporting, Dashboard Development, Data Modeling, and Business Intelligence**. Experienced in transforming raw data into actionable insights through analytics, visualization, and reporting automation.

EDUCATION

Bachelor of Technology in Artificial Intelligence & Data Science 2022 – 2026
Vishwakarma Institute of Information Technology, Pune CGPA: 8.73

Experience

Project Analytics Coordinator Intern Jun 2025 – Jun 2026
Sunteck Hi-Tech Private Limited Pune, India

- Worked on **real-time project analytics** and business reporting to support data-driven decision making.
- Analyzed project performance data, tracked **KPIs**, and generated actionable insights for stakeholders.
- Prepared reports and dashboards using analytical tools to monitor project progress and operational efficiency.
- Collaborated with cross-functional teams to streamline workflows and improve project coordination.
- Applied **Data Analytics, Business Analytics**, and problem-solving techniques to support project execution.
- Enhanced communication, reporting, and stakeholder management skills in a professional corporate environment.

PROJECTS

Customer Behavior & Sales Performance Analytics Dashboard

- Analyzed customer and sales data containing **100K+ transactions** using SQL, Python, Excel, and Power BI.
- Executed data cleaning, feature engineering, and EDA, improving dataset quality and analysis readiness by **30%**.
- Applied customer segmentation techniques to classify customers into behavioral groups, improving targeting effectiveness by **20%**.
- Developed interactive Power BI dashboards with **15+ KPIs** to monitor revenue trends, customer retention, and sales performance.

Rainfall Prediction and Weather Forecasting using Machine Learning

- Built a machine learning model using historical weather data achieving **85%+ prediction accuracy**.
- Performed preprocessing, feature engineering, and outlier treatment on **10K+ weather records** to improve model performance.
- Utilized Pandas, NumPy, Scikit-learn, and Matplotlib for predictive modeling and statistical analysis.
- Evaluated models using classification metrics and improved prediction performance by **15%** through feature optimization.

TECHNICAL SKILLS

Programming: Python, SQL
Databases: MySQL, PostgreSQL
Business Intelligence: Power BI, Tableau, DAX, Power Query
Data Analysis: EDA, ETL, Data Cleaning, Statistical Analysis, Data Modeling
Excel: Pivot Tables, XLOOKUP, INDEX-MATCH, Conditional Formatting
Libraries: Pandas, NumPy, Matplotlib, Scikit-learn
Tools: Git, GitHub, Jupyter Notebook

CORE COMPETENCIES

Requirements Gathering • Root Cause Analysis • Data Governance • Data Quality Assurance • Process Improvement • Forecasting • Performance Analysis • Data Reconciliation • Business Process Analysis • Analytical Thinking • Insight Generation • Cross-Functional Collaboration • Problem Solving • Documentation

CERTIFICATIONS & ACHIEVEMENTS

- **Microsoft Power BI Data Analyst** Professional Certificate
- **IBM Data Analyst** Professional Certificate
- **IBM Machine Learning** Professional Certificate
- Research Paper presented at **SSDSET 2K24 International Conference**
- Secured **AIR 1** at **ATVC 2024** and **AIR 6** at **SAE E-BAJA**
